* Here are some important things to remember when selecting a shipping method. "Common Carrier" means that your products can be delivered to a commercial site and you have a means of unloading them. "Common Carrier HOD" means "Hold at Dock" letting the carrier know that you will be by to pick up your shipment. Also, Lift Gate service is NEVER included in a freight price if you need this service it generally cost an additional $100.00.

If you have a large order and need some of it RED or BLUE - make 2 orders - one for the Priority and one for regular shipping. Air Services are very expensive. A 35 pound package can cost as much as $150.00 if sent RED (Nest Day) AIR.

Part Number	QTY	Price

Part Number	QTY	Price

There may be a situation where one or more of the products ordered are not in stock. If this is the case how would you like for us to handle the back ordered item(s)?
